DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

As to claim 1, line 12, -- the -- of "establishing the direct link" is deleted and -- a -- is inserted.

As to claim 8, line 12, -- the -- of "establishing the direct link" is deleted and -- a -- is inserted.

As to claim 11, line 10, -- the -- of "establishing the direct link" is deleted and -- a -- is inserted.

As to claim 18, line 10, -- the -- of "establishing the direct link" is deleted and -- a -- is inserted.

As to claim 21, line 15, -- the -- of "establishing the direct link" is deleted and -- a -- is inserted.

As to claim 28, line 15, -- the -- of "establishing the direct link" is deleted and -- a -- is inserted.

These amendments are provided to correct for a lack of antecedent basis for "the direct link" created with the applicant's amendment filed 29 October 2008.

Allowable Subject Matter

Claims 1-9, 11-19 and 21-29 are allowed. The following is an examiner's statement of reasons for allowance: with respect to independent claims 1, 8, 11, 18, 21, and 28, the prior art made of record teaches a method for an initiating wireless station that is part of an infrastructure basic service set network also comprising an access point and a second wireless station communicating on an infrastructure frequency channel comprising establishing a direct link with the second or remote wireless station on a direct link frequency channel that is different than the infrastructure frequency based on a determination of the RSS measurements performed by the initiating and remote stations in the exchange of setup information, see Welling et al., US 6,580,704. The prior art does not teach establishing the direct link based on determining that a number of consecutive frames generated at the initiating station or received by the remote station have a same destination address and exceed a threshold value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Reference the attached PTO-892 form for the prior art made of record and not relied upon but considered pertinent to applicant's disclosure.
